**HIGHWAY PROGRAM SUMMARY  
ILLINOIS DEPARTMENT OF TRANSPORTATION  
DISTRICT 6, SPRINGFIELD**

**Overview**

Highway District 6 encompasses 15 counties in west central Illinois and includes the cities of Springfield, Quincy, Jacksonville, Lincoln and Taylorville, plus many smaller communities, which serve as satellites for the larger employment areas or as focal points of this farming area. The state highway system in District 6 consists of 2,122 miles of highways and 842 bridges, supporting 10.3 million vehicle miles of travel daily.

**State Program**

The program for state and local highways will average \$1.483 billion annually for the FY 2004-2008 period. Approximately \$322 million will be provided during FY 2004-2008 for improvements to state highways in District 6. The following table summarizes anticipated accomplishments on the state highway system in District 6 during this time frame.

**FY 2004-2008 Accomplishments**

Interstate Rehabilitation (miles)	9
Interstate Bridges (number)	6
Other Bridge Rehab/Replace (number)	36
Resurfacing/Widening (miles)	402
Major Highway Construction (miles)	31
Traffic/Safety Improvements (locations)	39

Major projects of interest that are tentatively scheduled during the FY 2004-2008 time frame include:

- **Interstate 72 at MacArthur Boulevard in Springfield.** A new interchange at Interstate 72, bridge widening at the Union Pacific Railroad on Interstate 72 and extension of MacArthur Boulevard from Wabash Avenue to the interstate are programmed during FY 2005-2008 at a cost of \$23.4 million. TEA-21 provided \$4.1 million in High Priority Project funds for the interchange. Local participation is required for the extension of MacArthur Boulevard.
- **US 67 from south of the Greene County line to Interstate 72 (Central Illinois Expressway).** Development of a four-lane highway for 14.7 miles in this corridor is under way. Construction for the 9.2-mile segment from Interstate 72 to 2 miles north of Manchester has begun. Construction and associated work for the remaining 5.5 miles from 2 miles north of Manchester to 1 mile south of the Greene County line are programmed in FY 2004 at a cost of \$24.1 million to complete the route.
- **US 67 from west of the Jacksonville Bypass to east of the Concord/Arenzville Road.** Construction projects and associated work totaling \$15 million are programmed in FY 2004 to complete 3.1 miles of this new four-lane highway. TEA-21 provided \$10 million in High Priority Project funds for the project.

- **US 51 – Decatur to Pana.** Since 1990, the department has invested \$43.9 million on upgrading US 51 to four lanes south of Decatur, including the completed construction for 9.2 miles from north of Elwin to north of the Macon/Shelby County line. Construction is under way for another 5.5 miles at a cost of \$16.2 million, from north of the Macon/Shelby County line to 0.9 mile south of Moweaqua. Engineering for contract plans is also under way for US 51 from 0.9 mile south of Moweaqua to 2.9 miles north of Illinois 16 at a cost of \$1.2 million. Also, \$1.5 million is included in the FY 2003 Proposed Improvements for Illinois Highways for land acquisition of properties from willing sellers deemed to be hardship cases for the section from south of Moweaqua to the Shelby County line south of Pana. Land acquisition, archaeological surveys and utility adjustments are programmed during FY 2004-2008 at a cost of \$930,000. The remaining work to complete the 12.1-mile section from 0.9 mile south of Moweaqua to 2.9 miles north of IL 16 north of Pana is currently unfunded.
- **US 136/Illinois 336 - Quincy to Macomb Corridor.** A new four-lane highway from US 24 near Quincy to north of West Point Road is open to traffic. Construction contracts are under way to continue the four lanes northerly from north of West Point Road to 3 miles south of Carthage and for a 1.2-mile segment from Deere Road to County Highway 18 west of Macomb. The 60 miles of four-lane highway from Quincy to Macomb are fully funded. Construction on the remaining 26.3 miles from 3 miles south of Carthage to County Highway 18 west of Macomb is programmed during FY 2004-2008 at a cost of \$140.6 million. Of this total, engineering for contract plans, land acquisition, utility adjustments and construction to provide five lanes from US 136 east of Township Road 266 to County Highway 18 are programmed in FY 2004 at a cost of \$13.3 million. The ISTEA in 1991 provided \$4.9 million in federal demonstration funds and TEA-21 provided \$3.9 million in High Priority Project funds for this project.

(Also see District 4 projects under US 136 and ILL 336)

- **Illinois 4 from south of Madison Street in Girard to the square in Carlinville.** Resurfacing on 14.5 miles is programmed in FY 2004 at a cost of \$2.9 million.
- **Illinois 29 from Rochester to Taylorville.** Development of a four-lane highway for 18.8 miles in this corridor is under way. A construction contract for a 5.1-mile segment from Rochester to south of Berry was recently awarded.

Engineering for contract plans from 0.8 miles south of Berry to 1.2 miles south of Edinburg is programmed in FY 2004 at a cost of \$1.5 million. Construction for this segment is not funded.

New four-lane construction, bridge replacement and associated work for 6.7 miles from south of Edinburg to south of Illinois 104 in Taylorville are programmed during FY 2004-2008 at a cost of \$25.2 million. Of this total, land acquisition is programmed in FY 2004 at a cost of \$200,000.
